FALL 1954

SINGLE EARLY TULIPS

Single Early Tulips are all low growing, 12 to 14 inches, and are very suitable for formal beds, many varieties also for indoor forcing during the winter. They bloom about 4 weeks before the May flowering Tulips.

Cat. no.		Per doz.	Per 100
1	BRILLIANT STAR , Very brilliant scarlet with black centre, strongly recommended for early forcing and for massive bedding purposes	1.25	9.50
2	COULEUR CARDINAL , deep crimson, slightly dewed outside with an erect habit and very good lasting qualities. Very suitable for late forcing and bedding	1.10	8.50
3	CRAMOISI BRILLANT , a bright scarlet Tulip, much recommended for large beds	1.10	8.00
4	GENERAL DE WET , a very fine orange tulip, sport of Prince of Austria. This Tulip is sweet scented and very large. One of the most effective varieties for bedding and forcing	1.00	7.50
5	IBIS , a splendid deep rose sport of Flamingo, very beautiful for bedding out and a good forcer	1.00	7.50
6	KEIZERSKROON , (Grand Duc), a real old standby, unsurpassable for its strong stem and its bright red color with broad golden yellow border	1.30	10.00
7	ORANGE MARVEL , a bright orange red Tulip, which is very suitable for forcing as well as for bedding	1.10	8.00
8	PRINCE CARNAVAL , another sport of Prince of Austria, which is very popular through its striking colors of red with yellow markings. Sweet scented and much recommended	1.25	9.50
9	PRINCE OF AUSTRIA , also sweet scented of course. This tulip has a fine orange red color with brilliant scarlet inside. A perfect large globular flower of very great substance and suitable for all purposes	1.00	7.50
10	OLYMPIADE , a golden yellow Tulip with an exceptionally strong stem. Suitable for forcing and bedding	1.10	8.00
11	SUNBURST , this variety is strongly recommended for bedding. The color is orange yellow with striped and feathered carmine	1.20	9.00
12	VANDERNEER , although quite an old variety, it still is very much in demand for its special color of clear deep violet. A Tulip with a strong stem and suitable for all purposes	1.10	8.00
13	VERMILION BRILLANT , one of the most beautiful brilliant scarlet Tulips, very much recommended for early forcing and a great bedder	1.20	9.00
14	WHITE HAWK , a pure white Tulip, with a large globular shaped flower. Very suitable for bedding and forcing	1.00	7.50

DOUBLE EARLY TULIPS

Very attractive for bedding and forcing, with good lasting qualities. A very sturdy stem of about 12 to 14 inches height and flowering about 3 weeks before the May-flowering Tulips.

Cat. No.		Per doz.	Per 100
15	BONANZA , a fine carmine-red Tulip, edged yellow. A very attractive variety for bedding	1.20	9.00
16	BOULE DE NEIGE , (Snowball), the best pure white sport of Murillo, very suitable for forcing and bedding	1.10	8.00
17	ELECTRA , This sport of Murillo has a marvellous cherry red color	1.10	8.00
18	DANTE , one of the best double blood red Tulips, which will make a splendid show as a bedder, but also is very suitable for forcing in pots	1.25	9.50
19	EL TOREADOR , a very attractive Tulip of an orange red color with a fine orange edge. Very suitable for forcing	1.20	9.00
20	MARECHAL NIEL , a very good sport of Murillo, golden yellow, flamed salmon orange	1.10	8.00
21	MURILLO , this Tulip which has produced so many good sports is a beautiful Tulip itself. White shading to delicate pink and fine double flowers	1.10	8.00
22	ORANGE NASSAU , a blazing deep orange red color, also a sport of Murillo and a marvellous bedder and fine forcer	1.10	8.00
23	PEACH BLOSSOM , another sport of Murillo and for sure the best double pink Tulip there is. Suitable for all purposes	1.10	8.00
34	VUURBAAK , (Firedome), a fiery scarlet Tulip, with very large double flowers on a strong stem. Good for bedding and late forcing	1.50	11.00
25	WILHELM KODES , one of the latest sports of Murillo of a very fine bright orange color, flushed red	1.80	13.00
26	WILLEMSOORD , a very attractive sport of Murillo, a good double carmine red flower with a fine white edge. Good for bedding and excellent for late forcing	2.00	15.00

DARWIN TULIPS

"THE ARISTOCRATS OF TULIPDOM"

We know of no other Tulips so useful for various purposes, as the Darwin Tulips, with their bright colors, their large flowers on long graceful stems, their wonderful substance and lasting qualities.

For bedding, planting in borders and general gardening purposes, as well as for outside grown cutflowers, there are no better and more pleasing Tulips than the glorious Darwins.

No May garden is complete without Darwin Tulips, which possess a beauty and attractiveness all of their own.

Cat. No.		Per doz.	Per 100
27	ADORATION , a very good tulip for bedding with very strong and longshaped flowers of a salmon pink color	1.25	9.00
28	AFTERGLOW , one of the most outstanding tulips for bedding purposes. Very beautiful orange rose with distinct orange edge	0.85	6.50
29	ALL BRIGHT , the best deep blood red sport of Bartigon with a strong stem and a large globular flower	0.85	6.50
30	ANTONE MAURE , large flower of a very nice lilac mauve color with a lighter edge. Recommended	1.10	8.00
31	ARISTOCRAT , a real outstanding tulip with a beautiful flower of perfect shape on an extremely strong stem. A very fine soft violet rose with a lighter edge	1.25	9.00
32	BARTIGON , one of the best crimson red Darwins with a white base. Very good lasting qualities. Also suitable for late forcing	0.85	6.50
33	BLEU AIMABLE , a real fine bedder, exquisite flowers of a rich bluish heliotrope color and a bright blue base	1.00	7.50
34	BLUE RIBBON , certainly one of the best new blue tulips with a very large flower	1.50	12.00
35	CHARLES NEEDHAM , this tulip is a great favorite for massive bedding. Very large well formed flowers of brilliant scarlet on a sturdy stem. Much recommended ..	1.10	8.00

Cat. No. Per doz. Per 100

36	CITY OF HAARLEM , a tremendous flower of perfect form, vermillion scarlet with large beautiful base of black with half halo, unexcelled in its color for bedding	1.30	9.00
37	CLARA BUTT , an old standby, but still one of the best tulips in its color of clear self-colored salmon rose pink with well shaped flowers	0.85	6.50
38	DEMETER , a very deep purple tulip, which flowers earlier than any other Darwin Tulip. Very suitable for early forcing	1.60	12.00
39	DORRY OVERALL , one of the newer Darwin Tulips of a fine dark petunia violet color with a lighter edge. Very suitable for bedding with lighter colors	1.25	9.00
40	DRESDEN CHINA , a magnificent tulip of great merit. The color resembles very much the unusual and fine colors we will find in Dresden China. Fine soft rose with lighter edge	1.10	8.00
41	DUKE OF WELLINGTON , a pure white flower of good form, creamy anthers and base, good lasting qualities and a handsome bedder	1.00	7.50
42	ECLIPSE , a very large tulip of a glistening blood red, with a steel blue base on a strong stem. Very good lasting qualities	1.30	9.00
43	FARNCOMBE SANDERS , a magnificent cochineal-red flower, which we can recommend specially for bedding and which will make a fine show in combination with evergreens	0.85	6.50
44	GIANT , a real giant because of the size of its flower and its tall stem. A rich deep purple shaded violet	1.30	9.00
45	GLACIER (Wildlust), one of the best white Tulips. It opens light ivory and turns to pure white. This tulip has white anthers and a white base. Highly recommended	1.10	8.00
46	GLORIA SWANSON , a very large flower, color a Raspberry-flushed garnet, with blue base. A strong stem and excellent lasting qualities	0.90	7.00
47	GOLDEN AGE , Very few yellow tulips have such good qualities as this tulip. Big wellshaped flowers of a deep buttercup yellow with a touch of orange when in full bloom, on a tall stiff stem	1.30	9.00
48	GOLDEN MEASURE , Inside a deep golden yellow, outside canary yellow with a small red line. Very much admired because of its fine egg-shaped flower	1.10	8.00
49	INSURPASSABLE , This tulip will make a fine show in your border, but also is very suitable for late forcing. Large lilac flowers with fine lasting qualities	1.10	8.00
50	LADY HILLINGDON , a very special color of orange shaded buff. Flowers of medium size on a fine stem	1.10	8.00
51	LA TULIPE NOIRE , often called "The Black Tulip". In fact it is a very deep maroon, almost black color. Very popular for planting in groups with yellow tulips. The flower is of a perfect form and has a good substance ..	1.10	8.00
52	MADAME BUTTERFLY , a much recommended variety because of its fine bluish violet color with a paler edge and its big well shaped flower on a strong tall stem. Very suitable for bedding	1.10	8.00
53	MARGEAUX , a beautiful flower of deep wine-red, edged lighter, on a strong stiff stem. Recommended	1.00	7.50
54	MR. VAN ZIJL , one of the most beautiful varieties, a solid flower of a rose pink color with lighter edge and very good lasting qualities	1.10	8.00
55	NIPHETOS , a tulip which will make a real show in your garden because of its beautiful large flowers of a uniform soft lemon yellow color, with light anthers and a very tall strong stem	1.50	10.00
56	PAUL RICHTER , one of the newer varieties with a fine cup shaped flower of geranium red color. Much recommended for bedding, but also suitable for forcing	2.00	14.00
57	PIETER DE HOOGH , a beautiful lilac-rose edged salmon rose. Recommended for cutting because of its strong stem and the good lasting qualities	1.20	8.50
58	PRIDE OF HAARLEM , old, but still much in demand because of the large flower of superb form and the nice cerise scarlet color. A stately tulip for borders and amongst shrubs	0.85	6.50
59	PRIDE OF ZWANENBURG , an outstanding variety amongst the pink tulips. A pure salmon pink, a fine large flower on a tall erect stem with a very good substance. Certainly one of the most popular pink varieties for bedding	1.20	8.50
60	PRINCESS ELISABETH MAXIMA , a larger sport of the old Pr. Elisabeth. Large flower of vivid rosy pink with a white base. Suitable for bedding as well as for late forcing	1.10	8.00
61	PRUNUS , a salmon-pink sport of Bartigon, well formed flower on a tall strong stem. Also suitable for late forcing	0.90	7.00
62	QUEEN OF THE NIGHT , the best "black" tulip on the market. From a distance this large very deep velvet maroon flower looks really black. For a good color effect this tulip cannot be missed in your garden	1.00	7.50
63	ROSE COPLAND , a dark pink sport of William Copland, which is most suitable for cutting and early forcing	0.85	6.50
64	SCARLET LEADER , an outstanding variety amongst the red tulips because of its tremendous flower of a brilliant scarlet color. Very suitable for bedding and for planting in your border	1.10	8.00
65	SCOTCH LASSIE , a very fine deep lavender tulip of great substance and excellent lasting qualities	1.10	8.00
66	SMILING QUEEN , a more recent introduction and a tulip with a great future because of its beautiful satiny pink color with a silvery edge and a white base. The flower is of a perfect form and held on a tall erect stem. You should not miss to have this tulip in your garden. Much recommended	1.40	20.00
67	SUNKIST , The best pure golden yellow tulip with a strong stem and very good lasting qualities. Will make a fine show in combination with dark colored tulips	1.10	8.00
68	THE BISHOP , an extra fine variety because of its large flower of a beautiful deep violet color with a small blue base and which halo on a very strong stem	1.20	8.50
69	THE PEACH , the color of this tulip really resembles very much the color of a peach. The flower is held on a strong tall stem and has a large white base. Recommended ..	1.10	8.00
70	WHITE GIANT , one of the largest pure white tulips with a white base and black anthers. Fine formed flowers of long lasting qualities	1.00	7.50
71	WILLIAM PITT , an old standing variety, which is very suitable for forcing, but also very good for bedding. A very fine scarlet with darker shade on the outer petals ..	0.85	6.50
72	ZWANENBURG , one of the most dependable white Darwins, large pure white flowers with black anthers on tall stems. Recommended for bedding	1.00	7.50

COTTAGE TULIPS

Single Late Tulips flower about the same time as the Darwin Tulips and this class is specially noted for its wide variation in color, shape and habit of flowers, which make the Single Late Tulips useful also as cutflowers outside. Although some very good forcing varieties are found amongst the Single Late Tulips, this class is used mostly for bedding, for planting in borders and general gardening purposes for which they are excellently suitable.

Cat. no.		Per doz.	Per 100
73	ADVANCE , Still the very best red Cottage Tulip we can list. Outstanding because of its tremendous large flower of a blazing orange scarlet color, tinted cerise. Excellent for the border	1.50	11.00
74	ALBINO , a pure white Tulip with white anthers and a very nice egg-shaped flower. Suitable for late forcing and for bedding	1.10	8.00
75	ARGO , a very large flower, golden-yellow spotted orange changing to bronze-red. Very fine for the border	0.85	6.50
76	BELLE JAUNE , a well shaped Indian yellow Tulip on a strong erect stem. Recommended for bedding or border	1.00	7.50
77	DIDO , a very attractive Tulip because of its fine orange-red color with a bright orange edge with a yellow base. The large flowers are of a perfect form	0.85	6.50
78	GOLDEN HARVEST , a very large bright yellow Tulip, which in many ways resembles a Darwin Tulip because of its very strong and tall stem and nice large flower. Also suitable for late forcing	0.90	7.00
79	G. W. LEAK , in our opinion one of the most striking red Mayflowering Tulips under cultivation with a fine yellow base. A very elegant Tulip which we can recommend for planting between Evergreens	1.30	9.00
80	HOLLANDS GLORY , this amazing novelty has caused a sensation at recent shows. The beautiful flower is twice the size of any normal Tulipflower with a striking orange red color and a beautiful yellow base on an extremely strong stem. This Tulip is a real giant among other Tulips and the best novelty available each 2.50		
81	INGA HUME , a very large red Tulip, flushed yellow, inside deep yellow flushed red with a large black centre. A very effective Tulip	1.20	8.50
82	MARJORIE BOWEN , a very popular Tulip because of its warm shade of buff and salmon, passing into deep pink. A very large egg-shaped flower on a strong stem	1.00	7.50
83	MARSHAL HAIG , a real beautiful Tulip for bedding of a brilliant scarlet color on a tall stem	1.10	8.00
84	MONGOLIA , we can highly recommend this variety because it produces one of the largest flowers under cultivation. Very nice oval shape, color canary yellow. Very strong stem	1.50	11.00
85	MRS. JOHN SCHEEPERS , a beautiful Tulip, producing colossal flowers of pure yellow. One of the best in its class. Strongly recommended	1.10	8.00
86	MRS. MOON , charming and attractive with beautifully shaped flower, with pointed petals, reflexed at tips. This clear yellow Tulip has very good lasting qualities and is perfect for outdoor cutting	1.00	7.50
87	NORTHERN QUEEN (Queen of the North), an outstanding Tulip for bedding purposes. Very sturdy, white with a broad pink edge	1.50	11.00
88	ROSABELLA , a pale rose Tulip of medium size, with a lighter edge. Very elegant flower	1.20	9.00
89	PRINCESS MARGARET ROSE (Kleurenpracht), a beautiful sport of Inglescombe Yellow, which is very popular because of its fine yellow color, edged and flushed orange-red. Recommended	1.00	7.50
90	WHITE CITY (Mount Erebus), a strongly recommended white Tulip, with creamy yellow anthers. A very fine shaped flower on a strong erect stem	1.10	8.00
91	ZOMERSCHOON , the oldest Tulip yet under cultivation. In horticultural books of 300 years ago we noticed this name already and even today it is a variety worth growing. A medium sized flower of a salmon rose color with white markings. A sturdy stem of 20" high. Very rare	2.40	18.00

LILY FLOWERING TULIPS

The Lily-flowering Tulips belong to the Single Late or Cottage Tulips. Through many recent and better introductions this class has become much more popular. They all have a very dainty shape, with very pointed petals more or less resembling Lilies. They are fine for borders and very desirable for cutflowers, as they have very good lasting qualities.

Cat. no.		Per doz.	Per 100
92	ALASKA , a fine sweet scented bright yellow Tulip, very interesting because of its fine shape and its strong stem	0.90	7.00
93	ADONIS , a very dainty Tulip, with a lovely shape and a fine cerise red color. Tall stemmed	1.10	8.00
94	BEVERLEY , a more recent introduction on a long and strong stem and of a bright orange-red color. Much recommended	1.25	9.50
95	CAPTAIN FRYATT , one of the finest Lily-flowering Tulips with very pointed and reflexed petals. A very attractive Tulip of a fine garnet red color with a deep violet blue centre	1.50	11.00
96	GOLDEN DUCHESS , a deep primrose yellow Tulip on a very tall and strong stem	1.75	13.00
97	MARCELLINA , a very elegant Tulip of deep rosy pink with a pure white base	1.20	8.50
98	LILAC TIME , a new introduction with a very striking color of lila-magenta with a fine white base, which certainly will make a beautiful combination with your other Lily-flowering Tulips	4.00	
99	PICOTE (Maiden's Blush), although one of the older varieties it is still an outstanding variety. White with a feathered pink edge passing into rose	1.10	8.00
100	ROYAL BABY , an outstanding novelty, inside striking shining red with a white base, outside white with a fine carmine-red edge	3.00	
101	WHITE DUCHESS , the finest white Lily-flowering Tulip. Flowers are of beautiful shape and carried on a tall strong stem	1.20	9.00

THE ROBUST BREEDER TULIPS

These much desirable Tulips are still very much in demand, because of their fine „art" colors, ranging from purple to orange and bronze, all very special colors not easily found in the other Mayflowering Tulips. Some varieties flower a few days later than the Darwin and Cottage Tulips and if you really wish to stretch your Tulip flowering season as long as possible you will need some of these very tall and robust growing Tulips.

Cat. no.		Per doz.	Per 100
102	ALICE KEITH , a very fine orange, tinted reddish purple. Good shaped large flower on a strong and erect stem. Very good lasting qualities	1.10	8.00
103	BACCHUS , an enormous flower of intense bright purple with a deep blue shade over the outer petals. A very special color only found in Breeder Tulips and certainly worthwhile growing	1.20	8.50
104	CARDINAL MANNING (Goliath, Kingscourt), a very large oval shaped flower of a fine Bishop's purple, flushed dull bronze	1.10	8.00
105	CHERBOURG , one of those very special Breeder Tulips and probably one of the finest bronze Tulips. Color is a golden yellow, the outside petals tinged a heavenly bronze. A very special color. Late flowering	1.25	9.00
106	DILLENBURG , a very popular Tulip with a fine glowing salmon orange color edged apricot. A very late flowering variety and very suitable for cutting because of its long lasting qualities	1.00	7.50
107	DOM PEDRO , a coffee brown Tulip, with a dark bronze centre. It is a sweet scented Tulip on a fine tall strong stem	1.10	8.00
108	INDIAN CHIEF (Meyerbeer), an enormous flower of exquisite form with a very dark mahogany red color. A very effective Tulip, long stemmed	1.60	12.00
109	J. J. BOUWMAN , an outstanding tomato-red Tulip, flushed claret with a yellow edge	1.10	8.00
110	LOUIS XIV , a Tulip with a real „art" color. It is a color you will have to see. A rich dark purple flushed with bronze, edging to golden brown. Much recommended. Late flowering	1.10	8.00
111	PANORAMA (Fairy), a very large flower of rich chestnut red color. Sweet scented. Also suitable for late forcing	1.00	7.50
112	ORANGE BEAUTY , a very late flowering Tulip on a tall erect stem and a deep orange-scarlet color with a golden orange margin	1.00	7.50
113	PRES. HOOVER , scarlet inside, brilliant flushed orange-red outside. A Tulip with a good substance and a stout and sturdy stem	1.20	8.50

TRIUMPH TULIPS

The Triumph Tulips are the result of a crossing between Early Tulips and Darwin Tulips. They have a very vigorous habit of growing and are about 16 to 18 inches tall. Their outstanding colors make them very attractive for the garden, they take a special place, as they bloom between the Early and the Darwin Tulips and so fill the gap between these classes.

Cat. no.		Per doz.	Per 100
114	ALBERIO , cerise scarlet flower with narrow pale yellow edge. Good for bedding and also suitable for forcing in pots	1.00	7.50
115	BANDOENG , the very fine tulip on a sturdy stem. Deep mahogany-red flushed orange with a golden yellow edge. Recommended	1.00	7.50
116	CRATER , one of the most outstanding red Triumph Tulips. Deep carmine-red. Very suitable for all purposes	1.10	8.00
117	DENBOLA , the tall and strong stem carries a large flower of deep amaranth-red edged creamy white. A tulip with great substance very suitable for pots	1.50	11.00
118	EDITH EDDY , a very large flower of carmine red edged white. Good forcer and attractive in your border	0.90	7.00
119	ELISABETH EVERS , a huge flower of beautiful pink with a large white base. Suitable for all purposes	1.50	11.00
120	ELMUS , We can very much recommend this tulip because of its vigorous growth and its large globular flower of fine cherry red with a white border. Can be used for all purposes	1.10	8.00
121	GLORY OF NOORDWIJK , one of the finest pink tulips of this class. Deep lilac rose with large white base. Very attractive for bedding or border	1.50	11.00
122	KANSAS , a good pure white tulip with a yellow centre on a very sturdy stem	0.85	6.50
123	KORNEFORUS , a very fine carmine colored tulip, with a white base on a tall strong stem. One of the finest forcers of this class	1.20	8.50
124	MR KERBERT , this very sturdy tulip, which is suitable for all purposes is highly recommended because of its bright rose color and nice white base. Very large flower	1.20	8.50
125	PAX , the very best white Triumph Tulip. Pure white, with white anthers and a white base. A very large flower on a tall erect stem	1.20	8.50
126	RHINELAND , a very good bedder of great substance. Crimson-red flushed bronze and a broad golden yellow edge	0.85	6.50

DOUBLE LATE PEONY FLOWERING TULIPS

Including Double Triumph Tulips

A complete new group of Tulips greatly admired during the International Flowershow „The Flora" in Holland this Spring, where this group drew very much attention and general admiration.

Wonderful results have been obtained with the hybridisation of these new varieties and they must be regarded as a great addition to our Tulip-assortment. The stock of most of these novelties is still limited and the demand for several varieties will surpass the supply for the next three or four years, which will make early ordering advisable. They are May-flowering Tulips, almost as tall as Darwin Tulips, with strong and sturdy stems, carrying Peony-shaped double flowers of excellent lasting qualities. They are splendid for bedding and for borders.

Cat. no.		Per doz.	Per 100
127	COXA , a fine sturdy Tulip on an extremely strong stem, carmine shaded vermillion with a pale yellow edge	2.00	15.00
128	EROS , an outstanding pink double Tulip. Very large and good double with distinct old rose color. This variety is in great demand and well adapted for massive bedding or for the border	2.25	16.00
129	LILAC PERFECTION , a wonderful new introduction with a marvellous lilac shade. A very large Peony-like flower on a very strong and sturdy stem	4.00	
130	LILAC STAR , another recent introduction, which through its fine Peony like flower makes it an outstanding variety. A fine beautiful double lilac flower on a strong and sturdy stem	2.50	
131	LIVINGSTONE , a fine bright red double Tulip, with very good lasting qualities	1.50	11.00
132	MAYWONDER , this novelty certainly is one of the best rose Peony flowering Tulips. A very distinctive soft rose shaded flower of a large size on an extremely strong stem	3.00	

Cat. no.		Per doz.	Per 100
133	MOUNT TACOMA , most perfect double white Tulip, on a tall strong stem with a very large and Peony like double flower	1.00	7.50
134	NIZZA , very attractive because of the pretty color combination of dark red, feathered yellow with a yellow border. Very strong and sturdy stem	1.50	11.00
135	PALETTE , because of its tremendous size, this novelty has drawn very much attention. The color is very attractive deep violet red with a beautiful golden yellow edge. Much recommended	2.50	
136	SYMPHONIA , a tall growing double Late Tulip with a very strong stem. A sport of Darwin Pride of Haarlem, its color is cherry red and the enormous flowers are well shaped	1.50	11.00
137	TORNADO , a recent introduction with a beautiful glowing deep red double flower on a very erect and strong stem	2.00	
138	UNCLE TOM , a recent introduction of special beauty. A very dark glittering maroon red and a large fine double flower on an extremely strong stem. This Tulip has been a sensation on many flowershows and we can highly recommend it	2.25	16.00

MENDEL TULIPS

This class of Tulips is the result of crossings between The Old Duc van Toll Tulips and the Darwins. They have fine forcing qualities, but some varieties have weak stems and poor lasting qualities. We only list the varieties, which in our opinion have the best qualities and we are sure that these varieties will be very useful in your garden and are excellent pot Tulips.

Cat. no.		Per doz.	Per 100
139	JOHN GAY , a large brilliant orange-red flower on a sturdy stem. This variety is suitable for all purposes	1.00	7.50
140	FUGA , a new introduction, which has excellent qualities for early forcing. A nice blood-red tulip	1.25	9.50
141	HER GRACE , an outstanding variety among the Mendel Tulips. The white flower with the deep lilac-rose edge is carried on a strong stem. Much recommended for bedding and early forcing	1.10	8.00
142	KRELAGE'S TRIUMPH , a tulip with a great substance of a deep red color. A very popular tulip as well for forcing as for bedding	0.85	6.50
143	ORANGE WONDER , a novelty with a very large flower of glowing red edged orange and a very strong and erect stem	1.25	9.50
144	WHITE SAIL , when opening the flower is creamy white, passing quickly to pure white. Very suitable for early forcing	0.85	6.50

NEW PARROT TULIPS

A new class of Tulips, which has proven to be very popular. Your Tulip assortment is not complete without these amazing Tulips. Many new varieties and improvements have been added and we can strongly commend them. They differ altogether in shape from the other Tulips as they are heavily feathered and frilled, open very wide and produce enormous flowers. Some varieties are very scarce and we advise you to place your order in time. They are a great improvement over the old-fashioned Parrot Tulips, as they have tall and much stronger stems than the old Parrot type.

Cat. no.		Per doz.	Per 100
145	BLACK PARROT , a novelty which will catch your eye at every place in your border. The enormous flower of a gleaming purplish black is carried on a fine tall stem	2.50	
146	BLUE PARROT , a sport of Darwin Tulip Bleu Amable, a very large beautiful flower on a strong stem, a bright bluish-heliotrope with a purple interior. It opens to an enormous size. Recommended	1.10	8.00
147	DISCOVERY , another outstanding novelty, which is a sport of Darwin Tulip Princess Elisabeth and thus has its same good qualities however with a much larger flower of fine violet-pink edged silvery-white	2.00	14.00
148	FANTASY , no wonder this tulip has been one of the best sellers of recent years. As a sport of Darwin Tulip Clara Butt it has a very strong and erect stem with an enormous flower of indescribable beauty of a lovely soft rose feathered green, inside salmon rose. Much recommended for bedding as well as for borders	1.00	7.50
149	FIREBIRD , this is a red sport of Fantasy, with the same outstanding qualities, but instead of soft rose this tulip has a fine vermillion scarlet color with green streaks	1.10	8.00
150	GADELAN , this large tulip, with its heavily frilled flowers has a very special violet mauve color, shaded purple with a white base	1.60	12.00
151	KAREL DOORMAN , a novelty of recent years, which as a sport of Triumph Tulip Alberio has excellent qualities. A very sturdy and erect stem. Flowers are of a perfect Parrot Tulip shape, heavily frilled and of a cherry-red color with a beautiful golden yellow edge	2.00	
152	ORANGE FAVORITE , although not as strongly frilled as the other Parrot Tulips, it still is a very attractive variety because of its wonderful sweet scent, its fine orange-red flower with yellow base, which makes it a favorite	1.00	7.50
153	RED CHAMPION , this tulip is a sport of Darwin Tulip Bartigon and can boast on the same long lasting qualities and a flower of very fine substance, bright crimson, shaded rosy-red with a white base. A very strong and erect stem	1.40	10.00
154	REX , an amazing novelty and a sport of the Single Early Tulip Keizerskroon. A flower of a tremendous size, bright red with a broad golden yellow border on a short but sturdy stem. Nicely frilled along the edges. Very early	3.00	
155	SUNSHINE , not as tall as the other Parrot Tulips, but by far the very best golden yellow one, with black anthers. A perfect shape and very good lasting qualities	1.20	8.50
156	THERESE , a very large flower of fiery rose-scarlet on a tall and very strong stem. Very heavily frilled	1.10	8.00
157	VIOLET QUEEN , the best blue Parrot Tulip, with all qualities you can wish for. A strong stem, perfect and heavily frilled flowers of a beautiful pearl blue. Much recommended	1.50	11.00

THE BOTANICAL TULIPS

Tulipa Species

This class of Tulips is becoming more and more popular every year and no wonder for we cannot imagine anything more beautiful than a bed of Tulipa Mad. Lefebvre or a batch of Tulipa Kaufmanniana.

Most species *Tulipa* originate from Persia and Central Asia and are in contrast with all other Tulips listed in this catalogue, no hybrids, but original forms. For this reason,

this class has so many different forms and types of flowers, which makes every variety a separate and interesting specimen. They all are splendid for rockgardens and because many varieties flower earlier than your Single Early Tulips, they really brighten up your border in the early Spring, with their unusual bright and gay colors.

Cat. no.		Per doz.	Per 100
158	BIFLORA , multiflora, small white flowers with white centre	1.10	8.00
159	CLUSIANA , outer petals cherry-red; inner petals white	1.20	8.50
160	CORNUTA STENOPETALE , red and yellow, very long pointed flower	1.10	8.00
161	DASYSTEMON (Tarda), canary yellow and white, bunch-flowering	1.40	10.00
162	EICHLERI , fine vermillion orange	1.00	7.50
163	EICHLERI EXCELSA , very large form of Eichleri	1.20	9.00
164	FOSTERIANA CANTATA , vermillion scarlet flower, shiny green foliage beautifully contrasting with a large flower on a short stem	2.00	14.00
165	FOSTERIANA PRINCEPS , a good variety for the Rock-garden. Very fine large red flower on a short stem. Much recommended	2.50	
166	FOSTERIANA RED EMPEROR (Mad. Lefebvre), a sensation at several Flowershows. A magnificent variety, enormous blooms of the most intense vermillion scarlet, handsome black, yellow bordered base, strong grower. Without this variety your Tulipgarden will not be complete. Highly recommended	1.75	12.00
167	KAUFMANNIANA (The Waterlily Tulip), beautiful flower, opening up brilliantly in the sun, blooms early, color is mostly white somewhat tinged light red, golden base	2.25	16.00
168	KAUFMANNIANA ELLIOT , outside petals are red contrasting nicely with the creamy yellow of the rest of the flower	2.50	
169	KAUFMANNIANA GAJETEY , a pure white inside, large yellow base, outer petals are flushed red, flower opens up tremendously in full sunshine, sturdy grower, each 0.30	2.75	
170	KAUFMANNIANA THE FIRST , one of the earliest to flower, color soft white, outer petals reddish	2.75	
171	KAUFMANNIANA VIVALDI , a beautiful variety, tall flowers of creamy yellow, outer petals with crimson blotch, distinct crimson ring in centre of flowers, beautiful foliage with brown spines	2.75	
172	LINFOLIA , brilliant vermillion dwarf	1.75	14.00
173	MARJOLETTI , lemon yellow, rose base	1.00	7.50
174	PERSICA , dark yellow, very late	1.50	11.00
175	PRAESTANS , lively light orange scarlet, several flowers on a stem	2.50	
176	PRAESTANS FUSELIER , vermillion orange, 3-5 flowers on a stem	2.50	
177	SYLVESTRIS (Florentina Odorata), yellow, sweet scented	1.00	7.50
178	TURKISTANICA , white, orange yellow centre, bunch-flowering	1.10	8.00

NARCISSUS AND DAFFODILS

All our Narcissus and Daffodils are supplied in extra selected topsize double nose bulbs, which will produce from 2 to 4 flowers.

With their unsurpassed beauty, Daffodils and Narcissus have gained a prominent place in the Spring Garden. In every garden there are so many spots between Evergreens, or under trees where other bulbs or plants will not thrive, but Daffodils and Narcissus will make such spots the most valuable parts of your garden. If you leave them undisturbed they will produce flowers every Spring for years in succession. But also in borders they will make a marvellous show. In our opinion they deserve more popularity for forcing in pots too. Kept in a cool dark spot, watered once a week and brought into the living room when the sprouts are about 2 inches tall, they will prove very easy forcers and when in bloom they will last well, sometimes up to two weeks. A small investment now and a great success will be achieved during the dark Winterdays.

YELLOW TRUMPETS

One flower to a stem. Trumpet or Corona as long or longer than the Perianth segments.

Cat. no.		Per doz.	Per 100
179	AEROLITE , Primrose perianth, clear yellow nicely fringed trumpet, very good lasting qualities. Free flowering	1.60	12.00
180	COVENT GARDEN , fine allround yellow trumpet, very free flowering and suitable for forcing in pots	1.60	12.00
181	DAWSON CITY , a uniform deep yellow fine formed flower on a long stem	1.60	12.00
182	FLOWERCARPET , considered to be an improved King Alfred. Very free flowering with fine golden yellow trumpet	1.80	13.00
183	GLORY OF LIMMEN , one of the best recent introductions in yellow trumpets. Very large and a fine deep golden yellow. Very sturdy and vigorous grower. Recommended	2.00	15.00
184	GOLDEN HARVEST , one of the leading yellow trumpets. Very large golden yellow flowers with beautifully fringed trumpets. Early flowering and very suitable for forcing	1.90	14.00
185	GOLDEN GIANT , one of the newest introductions, with enormous big flowers of a perfect shape. Color a warm golden yellow. Very strong grower. Recommended	2.00	15.00
186	KING ALFRED , an old standby, but still the biggest seller for its allround perfect qualities. Beautifully formed rich golden yellow trumpets on strong stems with excellent lasting qualities. Free flowering and very suitable for forcing	1.50	11.00
187	LORD WELLINGTON , very large trumpet of bright yellow, slightly frilled. Fine variety for exhibition	2.50	
188	MAGNIFICENCE , one of the earliest yellow daffodils, with a fine frilled trumpet of golden yellow. Free flowering. Recommended for forcing	1.80	13.00
189	REMBRANDT , an allround dependable variety, a very large golden trumpet, flat petals and overlapping perianth, very early and a good forcer	1.60	12.00
190	UNSURPASSABLE , one of the very largest yellow trumpets in existence, deep golden yellow, fine form and carriage, well overlapping petals. Good show flower	2.50	

BICOLOR TRUMPETS

Cat. no.		Per doz.	Per 100
191	GLORY OF SASSENHEIM , a fine bicolor, free flowering golden yellow trumpet of good substance	1.80	13.00
192	MUSIC HALL , snow-white perianth, with fine yellow trumpet, early	2.00	14.00
193	LOTTA SVÄRD , large yellow trumpet, creamy white perianth, beautiful variety. Very early	2.00	14.00

Cat. no.		Per doz.	Per 100
194	PRESIDENT LEBRUN , a recent introduction with excellent qualities, perianth white, trumpet lemon yellow, passing to creamy white.	1.90	14.00
195	QUEEN OF THE BICOLORS , one of the finest bicolors, trumpet a light yellow, perianth snow-white, fine form, extra for garden.	2.00	14.00
196	SPRING GLORY , an old standby, but still very attractive. Much recommended for forcing. White perianth, large yellow trumpet. Very early.	1.80	13.00

WHITE TRUMPETS

Cat. no.		Per doz.	Per 100
197	BEERSHEBA , an outstanding white trumpet, pure white throughout and of a perfect form. A gracious and noble flower. Much recommended.	2.00	14.00
198	MOUNT HOOD , a more recent introduction, which we can highly recommend. Much overlapping pure white perianth, trumpet opening creamy, changing to pure white when in full bloom. Very tall grower with stiff stems. Exhibition variety. each 0.25	2.50	
199	MRS. E. H. KRELAGE , perianth snowy-white, trumpet a light creamy white. Long lasting flowers.	1.60	12.00
200	ROXANE , a lovely flower of pure white throughout, fine form, well overlapping perianth. Suitable for forcing.	2.00	14.00

PINK TRUMPETS

Cat. no.		Per doz.	Per 100
201	MRS. R. O. BACKHOUSE , It is a delight to look at the flowers of this variety. No wonder it has been a best seller for years already, and it should be grown in every garden. The trumpet is shell pink shaded deep pink at brim, perianth white. A very unique variety.	2.00	14.00

INCOMPARABILIS VARIETIES

One flower to a stem, Cup or Corona more than one third, but less than equal to the length of the Perianth segments.

Cat. no.		Per doz.	Per 100
202	ABELARD , lemon yellow perianth, well overlapping, large orange-scarlet crown, orange anthers.	1.25	9.00
203	ADVENTURE , clear soft yellow throughout, very large and vigorous grower.	2.00	15.00
204	AGRA , flat white perianth, large orange cup. Excellent lasting qualities.	1.60	12.00
205	BOKHARA , a well formed variety, yellow perianth and dark orange cup, good grower and early.	2.00	15.00
206	BRUNSWICK , flat white perianth, the crown is trumpet-shaped, white with a distinct greenish rim. A very outstanding novelty. each 0.40	4.00	
207	CARLTON , a giant incomparabilis of clear yellow. A very nice frilled cup. Excellent lasting qualities and very suitable for forcing.	1.20	9.00
208	DEANNA DURBIN , a fine flower of good form, pure snow-white perianth, and a large orange crown.	1.20	9.00
209	DICK WELBAND , pure white perianth, enormous flat crown of a blazing orange. Much recommended.	1.40	10.00
210	FLOWERRECORD , extra free flowering, large pure white perianth, expanding crown of orange turning red at edge. Splendid forcer.	1.20	9.00
211	FORTUNE , this variety has been and still is one of our favorites. An extremely well formed flower of perfect carriage on a two feet stem, the perianth is a deep lemon yellow, very flat and well overlapping, the large crown is nicely frilled and of a gleaming coppery orange. Good and early forcer.	1.50	11.00
212	JOHN EVELYN , one of the best in its class. A very large flower, perianth a creamy white, the cup is large and beautifully frilled and of the most attractive flushed apricot color. Much recommended, also for forcing.	1.20	9.00
213	KILLIGREW , a fine variety, yellow perianth, the cup is an intense deep orange.	1.20	9.00
214	MERCATO , a beautiful variety, perianth snow-white, the crown is golden yellow and orange trimmed.	1.20	9.00
215	MONIQUE , this variety is largely used for shows and rightly so, for with a white perianth, well overlapping, the large crown is with a fine rim of blazing dark orange, it has attractive show qualities.	1.40	10.00
216	ORANGE GLOW , a very fine variety, large flat yellow perianth, crown very expanded and of deep orange, beautifully frilled.	1.20	9.00
217	SCARLET ELEGANCE , very early. A golden yellow perianth with a beautifully colored crown, which is a deep scarlet. Much recommended for forcing.	1.20	9.00
218	SCARLET LEADER , perianth very flat and overlapping of a creamy color, the crown is widely expanded and an intense blazing red. A very striking variety, fine for exhibition purposes.	2.00	15.00
219	SEMPER AVANTI , a beautiful flower of great merit, the perianth is well overlapping creamy white, the cup is of a bright orange red. Highly recommended for borders as well as for forcing.	1.40	10.00
220	SUDA , a white perianth, with a light rose trumpet-shaped crown. A very odd and special Narcissus.	1.40	10.00
221	TUNIS , creamy white perianth, crown opening lemon yellow turning creamy white, with a very attractive bronze colored rim at the edge.	1.80	13.00

SMALL CUPPED VARIETIES

Cup or Corona not more than one third the length of the perianth segments.

Cat. no.		Per doz.	Per 100
222	CRENVER , a beautiful flower, pure white flat overlapping perianth, bright yellow cup, with a fine red rim.	1.60	12.00
223	FIRETAIL , a very attractive flower, broad creamy white perianth, blazing red cup.	1.10	8.00
224	EDWARD BUXTON , lemon yellow perianth, cup is a light orange-red with a bright red rim. Good for forcing.	1.80	13.00
225	LADY DIANA MANNERS , a well-formed flower with broad overlapping white perianth, the crown is flat and of a blazing orange scarlet with a deep red rim.	1.20	9.00
226	LA RIANTE , a wonderful new variety, snow-white perianth and a flat crown of vivid scarlet of excellent form and substance. Good grower and fine for garden or forcing.	1.40	10.00
227	VERGER , a fine novelty with a pure white perianth and a deep red cup. Excellent for garden and early forcing.	1.80	13.00

DOUBLE NARCISSUS

Cat. No.		Per doz.	Per 100
228	INGLESCOMBE , one of the best doubles, fine large flower of primrose yellow throughout, recommended.	1.40	10.00
229	INSULINDE , a fine variety, primrose yellow turning much lighter with a double center of blazing orange red.	1.60	12.00
230	MARY COPELAND , very attractive, outer petals a creamy white, the double center a vivid orange red.	2.00	15.00
231	TEXAS , a well known variety of perfect form, color a fine yellow mixed with dark orange, good stems.	1.80	13.00
232	TWINK , the center is a fine orange against a primrose background.	1.75	13.00

POETAZ NARCISSUS

(more flowers to a stem)

Cat. no.		Per doz.	Per 100
233	CHEERFULNESS , an old variety but still popular, creamy white perianth, with a full double center of the palest yellow.	1.00	7.50
234	CRAGFORD , creamy white perianth, dark orange eye, three or more florets per stem, can easily be forced to bloom around Christmas, extremely early. each 0.25	2.50	
235	EARLY PERFECTION , snow-white perianth, cup lemon yellow, very nicely formed flowers.	1.20	9.00
236	GERANIUM , a beautiful new introduction, 4 to 6 heads of flowers carried on strong stems, flowers have a pure white perianth and a vivid orange cup, late blooming, recommended for border.	1.40	10.00
237	LAURENS KOSTER , 5 or more flowers are carried on strong stems, pure white perianth, orange yellow cup.	1.10	8.00
238	SCARLET GEM , primrose perianth, bright orange red cup very suitable for forcing.	1.40	10.00
239	ST. AGNES , a beautiful variety, pure white perianth, cup of intense bright red, strong stems.	1.40	10.00
240	YELLOW CHEERFULNESS , a most beautiful new introduction, a fine lemon yellow sport of Cheerfulness. Very good double and suitable for border as well as forcing.	2.00	15.00

POETICUS NARCISSUS

Cat. No.		Per doz.	Per 100
241	ACTAEA , large pure white perianth of perfect shape with a brilliant scarlet eye. Vigorous and tall growing. Free flowering.	1.10	8.00
242	DULCIMER , late bloomer, large flattened red eye with a somewhat greenish looking centre.	1.40	10.00
243	SARCHEDON , a good overlapping snow-white perianth, with a crimson scarlet eye, shaded bright yellow. Very large flowers.	2.00	15.00

JONQUIL AND VARIOUS NARCISSI

Cat. No.		Per doz.	Per 100
244	BULBOCODIUM CONSPICUUS (Yellow Hoop Petticoat), growing only 6 inches tall. Very attractive for rockgardens. Rich golden yellow flowers.	1.00	7.50
245	CYCLAMINEUS , an early flowering variety, which clear yellow flowers resemble very much a cyclamen, because of the reflexed petals. 6 inches tall and excellent for rockgardens.	1.50	11.00
246	CYCLAMINEUS FEBRUARY GOLD , a sport of Cyclamineus with a yellow perianth and a golden yellow trumpet.	1.80	13.00
247	CAMPARNELLI ODORUS RUGULOSUS SINGLE , golden yellow flowers, two to four to a stem. Excellent for forcing or bedding. Fragrant.	0.75	5.50
248	CAMPARNELLI ODORUS RUGULOSUS PLENUS , heads of fragrant elegant double golden yellow flowers on tall stems.	0.90	6.50
249	JONQUILLA DOHLE , sweet scented, golden yellow, several flowers on a stem. Very suitable for cutting.	0.80	6.00
250	JONQUILLA SINGLE , sweet scented, deep yellow, with rush-like foliage. Several fragrant flowers on a stem.	0.75	5.50
251	JONQUILLA GOLDEN SCEPTRE , giant Jonquil, deep golden yellow. Refined elegant flowers of good substance. Sweet scented.	1.00	7.50
252	MINIMUS , the smallest Trumpet Daffodil. Only growing 4 inches tall with very tiny lemon yellow flowers. Very interesting for rockgardens.	1.50	11.00
253	TRIANBUS THIA , pure white, two and more drooping flowers on a stem. Splendid for rockgardens and also as a cutflower.	1.80	14.00
254	W. P. MILNER , sulphury white, very dwarf growing and so excellent for rockgardens. Free flowering.	1.40	10.00

FRENCH GROWN NARCISSUS

Specially imported from France, these bulbs are very easy for indoor forcing and will flower any time from Xmas on. Lately many types of Paperwhites have been brought into the market, which are not grown in France and which give very poor results. We guarantee however that all our Paperwhites are the best quality bulbs only, all imported from France, which will assure you the best results. Paperwhites are for indoor forcing only and should be planted on pebbles and water, leaving about one tenth of an inch of space between the waterlevel and the bottom of the bulb. By planting the pans at different times, you can have flowers continuously from December until the end of February.

Cat. No.		Per doz.	Per 100
255	PAPERWHITE GRANDIFLORA , of extra quality, producing up to a dozen white flowers to a stem, with a very nice sweet scent.	1.50	11.00
256	GRAND SOLEIL D'OR , the yellow paperwhite, producing many flowers to a stem.	2.00	15.00

HYACINTS

We would call the Hyacinth, the finest example of a bulbous flower. It takes several years of careful growing to produce a salable Hyacinth and Holland is proud of it, because it is one of its finest specialties, which almost no other country can produce. No other bulb can be used for so many purposes, excellent for bedding and in your border, as well as for forcing indoors. The color, which every garden is lacking in the early Spring is Blue. This is why blue Hyacinths are so desirable in every garden. But also your other colors will make a splendid show, while they are also unsurpassable for forcing. If given plenty of time to root in a dark cool spot, watered once a week and brought up when the sprouts are about 1½ to 2 inches tall, they will prove a great success. They all have a very nice and sweet scent.

EXHIBITION SIZE	very large bulbs of the best quality	Per doz.	Per 100
special suitable for forcing, growing on glasses and for Exhibition purposes.	each 0.35	3.00	27.50

	Per doz.	Per 100
FIRST SIZE BULBS , specially for forcing in pots, which will produce very large and fine spikes each 0.30	2.75	25.00
BEDDING SIZE , the best size for outside planting in beds or in your border. Hyacinths can stand the winter very well if planted in well drained ground and covered with a little straw or a thin layer of leaves to protect them from frost each 0.20	2.00	16.00

NEW INTRODUCTIONS

Cat. No.	
257	BORAH , the new multiflora Hyacinth, producing 5 to 10 spikes to a bulb. Very attractive blue and suitable for all purposes. Exhibition size only.
258	ROSALIE , this variety has great value for early forcing. They can easily be had in flower around Xmas. Bulbs are of a medium size, producing fine spikes with beautiful pink flowers. Much recommended. Bedding size only.

VARIETIES OF HYACINTHS

RED AND PINK VARIETIES

Cat. No.	
259	ANNA MARIE , a recent introduction of clear pink. Very early and good for forcing. Enormous spike.
260	JAN BOS , a medium size spike, but the best red color available. Very fine for pots.
261	LADY DERBY , fine pink, large bells.
262	MARCONI , deep rosy pink, recommended for all purposes.
263	LA VICTOIRE , brilliant carmine red, large spike. Suitable for all purposes.
264	PINK PEARL , rosy pink, large spike, early. One of the best Pink Hyacinths.
265	QUEEN OF THE PINKS , lovely bright rosy pink. Large spike of fine bells. Very good for bedding.

WHITE VARIETIES

266	L'INNOCENCE , pure white, very large well shaped bells, early and excellent for forcing and a good bedder. The most popular of all white Hyacinths.
267	EDELWEISS , pure white, sturdy broad compact spike. Large fleshy bells, fine early forcer.
268	CARNEGIE , a recent introduction with excellent qualities. Very large bells and a sturdy grower.

LIGHT AND DARK BLUE VARIETIES

269	BISMARCK , skyblue, large truss, excellent for early forcing.
270	DELFT'S BLUE , a novelty of bright porcelain blue with a very compact truss. Recommended for all purposes.
271	DR. LIEBER , medium blue, tall spike.
272	DUCHESS OF WESTMINSTER , beautiful deep blue with striking white centered bells.
273	GRAND MAITRE , fine deep porcelain blue.
274	KING OF THE BLUES , the best dark blue, with splendid well formed large spike on short stem. Late forcer and good bedder.
275	MYOSOTIS , pale porcelain blue, long spike and good forcer.
276	PERLE BRILLANTE , fine lavender blue, large spike.

YELLOW

277	CITY OF HAARLEM , yellow, large spike, extra fine.
-----	---

HYACINTH GLASSES

Hyacinths are also very suitable for growing on glasses, which method is very simple. Fill the glasses with water and the bulbs are placed upon them in such a way that the bottom of the bulb is resting a little above the water BUT DOES NOT TOUCH IT. This is very important. There should be a space of about one tenth of an inch between the bottom of the bulb and the level of the water. No more and no less. Then you put the glasses in a dark cool place, e.g. cellar or cupboard until the sprouts are about 1½ to 2 inches long after which they can be brought into a warm room and into full light. This will take at least six weeks.

HYACINTH GLASSES	30 c. each - 6 Glasses for \$ 1.50
Specially designed.	Sold with bulb and order only.

CROCUS

The prettiest and most popular early Spring Flowers. Crocus can be planted in any place and they do not need any special care. Once planted they come back year after year with an increasing richness of flowers. Some varieties are also splendid for forcing, but for this purpose Mixed varieties should never be used.

Cat. No.	BLUE AND PURPLE	Per doz.	Per 100
278	EARLY PERFECTION , dark lilac, very early and suitable for forcing	0.50	4.00
279	ENCHANTRESS , soft pale blue	0.50	4.00

MISCELLANEOUS BULBS AND ROOTS

ALLIUM

A very attractive member of the bulb family, producing ball-shaped flowerheads. Suitable for all purposes except for forcing. Very good for naturalizing.

Cat. No.		Per doz.	Per 100
291	AZUREUM , producing heads of sky-blue flowers in July. Height 25 inches	0.60	4.00
292	MOLLY , nice yellow flowerheads at the beginning of June. Height 8 inches	0.35	2.50
293	NEAPOLITANUM , bearing very distinct flowerheads of white flowers. Very suitable for naturalizing. Height 15 inches	0.35	2.50
294	KARATAVIENSE , very large purple flowerheads. Very tall and producing broad leaves	1.20	10.00
295	OSTROWSKIANUM , very dwarf growing; only 6 inches high with pretty carmine-rose flowerheads in June	0.45	3.00
296	ROSEMBACHIANUM , very vigorous growing up to 4 ft. tall, with large purple rose flowers in July. Suitable for cutting	0.30	2.50

AMARYLLIS (Hippeastrum)

Through very careful hybridizing and selecting Dutch growers have succeeded in producing a strain of Amaryllis, which is much superior to the old types. They produce larger bulbs with more flowers of outstanding form. The flowers are very large, have well overlapping petals and are twice the size of the flowers of the old type. Amaryllis can easily be grown in pots in the home. They can be brought into the light and heated room, right after planting them. They should be potted up from December to March and flower about 6 weeks after the planting date.

Cat. No.		each
297	PURE WHITE VARIETIES , extra selected large strain	2.50
298	RED VARIETIES , extra selected large strain	1.75
299	SEPARATE COLORS in pink, salmon orange and striped, extra selected large strain	2.00

ANEMONES

With their bright colored flowers, Anemones belong to the most popular garden bulbs. They should be planted about 2 inches deep and 5 inches apart in a sunny position. Because of the difference in hardness we have divided them into two groups:

Group A. Summerflowering Anemones, which should be planted right after the danger of frost is over. They can also be planted in the Fall, in which case they will flower much earlier, however in this case they must be well covered for protection against frost.

Cat. No.		Per doz.	Per 100
300	SINGLE ANEMONES The Caen, grand mixture of well blended bright colors	0.45	3.00

318	PEDUNCULARIS , pure white		

BULBOCODIUM

319	Bulbocodium Vernum, fine purple-rose flowers, much resembling crocus and flowering early in Spring	0.75	5.00
-----	--	------	------

CAMASSIA

This plant originates from the U.S.A. producing a 16 inches tall stem along which we find many star shaped flowers with yellow anthers. Very attractive for your border, excellent for naturalizing and cutting. Flowering in May. They need covering against severe frost.

Cat. No.		Per doz.	Per 100
320	ESCULENTA , splendid violet blue	0.40	2.50
321	CUSICKI , porcelain blue	0.40	2.50

CHIONODOXA (Glory of the Snow)

No wonder they call this flower Glory of the Snow. As soon as the snow disappears these bright skyblue flowers, growing about 5 inches high will show up with their beautiful star-shaped flowers. A real perfect early Spring flower, which is suitable for planting in the lawn and naturalizing and if left undisturbed they will produce more flowers every year. Very much recommended.

Cat. No.		Per doz.	Per 100
322	GIGANTEA , very large flowers of light blue with a pure white centre	0.45	3.00
323	LUCILEA , the earliest variety, lilac blue with a fine white centre	0.40	2.50
324	LUCILEA ALBA , pure white flowers	0.45	3.00
325	SARDENSIS , a very bright blue variety	0.40	2.50

ERANTHIS (Winter Aconite)

Together with *Snowdrops*, *Chionodoxa*, this plant belongs to the earliest Spring flowers. Beautiful for naturalizing because of the decorative foliage and the golden buttercup-like flowers. It can stand very shady places and moist ground. The bulbs should be left undisturbed and are very hardy.

Cat. No.		Per doz.	Per 100
326	HYEMALIS , golden yellow	0.60	4.50
327	CILICICA , blooms later than E. Hyemalis, pale yellow flowers with bronzy foliage	0.60	4.50
328	TUBERGINII , very large flowers of a golden yellow color	1.50	10.00

FRITTELARIA MELEAGRIS

The *Frittelaria Meleagris*, also called Guinea Hen flower is dwarf growing and produces very attractive and oddly marked drooping bell shaped flowers. Growing about 9 inches tall, they are excellent for naturalizing, for planting in the border or Rock-garden. They flower in June.

Cat.		Per doz.	Per 100
329	ALBA, white flowers	0.70	5.00
330	NAMED SORTS, a fine selection of separate colors and varieties	0.60	4.00
331	FINEST MIXTURE, a well blended mixture of all colors	0.50	3.50

IXIA

These pretty flowers grow about 16 inches tall. They are carried on a tall wiry stem and are of excellent lasting qualities, which makes them unsurpassable as a cutflower. Flowering time is June. They are much in demand because of their fine colors and striking dark eye. 5 to 10 flowers to a stem.

Cat. No.		Per doz.	Per 100
332	NAMED VARIETIES OUR CHOICE , a fine selection of several outstanding varieties in various different and separate colors	0.40	2.50
333	MIXED VARIETIES , a grand mixture of all colors	0.35	2.00

LILIUM

Most Lilies should be planted in the Spring, however two varieties have to be planted in the Fall. For those to be planted in the Spring, please apply for our extensive list of Spring Bulbs, which will be ready in February.

Cat. No.		Per doz.	Per 100
334	LILIUM CANDIDUM (Madonna Lily), a beautiful Lily pure white and growing about 3 to 4 ft. tall each	0.35	3.50
335	LILIUM EXCELSUM (Testaceum), very fragrant apricot yellow, growing about 3 to 4 ft. tall each	1.50	15.00

MUSCARI (Grape Hyacinths)

Flowering in April or May this family of Spring Flowers is still very popular because of their abundance of flowers and little care they need. When used for naturalizing they will produce more flowers every year. They grow about 8 inches tall and produce small spikes with ball shaped flowers, resembling small Hyacinths, for Rockgardens or naturalizing. Also suitable for slow forcing.

Cat. No.		Per doz.	Per 100
336	MUSCARI ARMENIACUM , bright blue. Very good for naturalizing	0.35	2.00
337	„ AZUREUM , the earliest flowering Muscari, with azure blue trusses	0.45	3.00
338	„ AZUREUM ALBUM , pure white, very large flowers	0.45	3.00
339	„ BOTRYOIDES ALBUS , very good for forcing. Pure white flowers	0.45	3.00
340	„ EARLY GIANT , an outstanding Muscari with large flowers of a brilliant blue color. A very fine forcer and excellent for the border	0.40	2.50
341	„ PLUMOSUM (Feathered Hyacinth), very odd flowers, looking somewhat like a plume. The color is violet blue	0.65	4.50

ORNITHOGALUM

Flowering in June this hardy bulb produces 12 inches tall stems along which we find many star shaped flowers. Very useful for naturalizing in shady places

Cat. No.		Per doz.	Per 100
342	NUTANS , producing ivory-white flowers with a green centre	0.55	4.00
343	UMBELLATUM , pure white flowers, outside green. Very effective	0.45	3.00

PUSCHKINIA

Looking much like the Scilla, this pretty Spring flower grows about 6 inches tall and produces trusses with many attractive flowers. When used for naturalizing they will produce more flowers every year, but they are also of great value for your rock garden or in the border in which they should have a permanent place. They flower in April.

Cat. No.		Per doz.	Per 100
344	LIBANOTICA , pale blue, with a dark blue stripe through every petal	0.40	2.50
345	LIBANOTICA ALBA , pure white flowers	0.45	3.00

SCILLA

This very popular Springflower is found in almost every garden. Because of the excellent beauty of the fragrant flowers they are most popular. As we will find in this family two different types, which have a different floweringtime and produce different kind of flowers, we would like to divide them into two groups:

A. Early flowering Scilla's.

About the earliest Springflower, which with its bright color announces the arrival of Spring. They should be planted in generous quantities in every garden, as right after the Winter, flowers are appreciated so much. They grow very compact, are free flowering and about 4 inches tall. Much recommended for naturalizing, planting along edges or in your lawn and border.

Cat. No.		Per doz.	Per 100
346	SCILLA BIFOLIA , deep blue	0.40	2.50
347	" SIBIRICA , sky blue, also suitable for forcing ...	0.60	4.50
348	" " ALBA , pure white flowers	0.65	5.00
349	" SPRING BEAUTY , this much improved form of Scilla sib. produces much larger flowers with excellent lasting qualities. Suitable for all purposes also for forcing.	0.85	6.00

Please write plainly. All orders are shipped prepaid.

B. May flowering Scilla.
The *Scilla Campanulata* or Wood Hyacinths (Blue bells) deserve much more attention than they have right now. We have discharged all old types in favour of a new strain, which produces larger spikes with tall compact flowers in a marvellous color assortment. They are suitable for all purposes, for naturalizing, planting in groups and even for forcing. We are sure that in the near future this strain will gain much popularity.

Cat. No.		Per doz.	Per 100
350	DAINTY MAID , very attractive dark pink. An outstanding novelty, strong grower with dark green foliage. Recommended	0.60	4.50
351	DONAU (Danube), excellent dark blue, very large spikes	0.50	3.50
352	IVANHOE , the darkest blue variety, which will make a fine contrast with the other colors	0.50	3.50
353	MYOSOTIS , soft lavender blue, producing large spikes on tall stems. Also suitable for cutting	0.45	3.00
354	PRINCESS JULIANA , light rosy-pink. A fine uniform color. Recommended	0.60	4.50
355	QUEEN OF THE PINKS , an excellent pink variety	0.60	4.50
356	QUEEN OF THE BLUES , light blue. Very large spikes on strong stems	0.60	4.50
357	RHINELAND , a fine uniform blue. Excellent for naturalizing	0.45	3.00
358	WHITE CITY , pure white. This and the undermentioned variety are a big improvement over the old Campanula Alba, because of the larger spikes and bigger flowers	0.55	4.00
359	WHITE TRIUMPHATOR , also pure white. Very vigorous grower. Suitable for all purposes	0.55	4.00

SNOWDROPS (*Galanthus*)

The earliest Springflower, which will be of great value in every garden. The pretty 6 inches tall flowerstems show up right after the snow disappears and when left undisturbed they will produce flowers in a greater abundance every year. Excellent for naturalizing.

Cat. No.		Per doz.	Per 100
360	SINGLE SNOWDROPS (<i>Galanthus Nivalis simplex</i>), white	0.50	3.50
361	DOUBLE SNOWDROPS (<i>Galanthus Nivalis fl.pl.</i>), white	0.80	5.00
